Nothing more beautifully illustrates the small thrift of foreigners than the mails. For instance: While we write for transmission abroad over 73,000,000 letters we receive only 59,000,000. While fetters we receive only 59,000,000. While of unpaid and short-paid letters we send 1,369,752, the foreigners afflict us with 2,165,552, on which we are obliged to pay postage. While we send abroad 49 157 postal cards with paid reply, they send as only 27.713. We write more single eards than they do, beating them nearly three-quarters of a million in a total of 7,800,000. Some of the voices are of marvelou strength and sweetness, and it is said This afternoon report was made at the Heal... Office that Miss Sadie Edean, rethat some members of the choir can shatter a thin glass into fragments by stang with her mother at 614 Eighteenth street, had been taken down with small-pox. The house was immediately quarsinging into it, so powerful are the vi brations of their tones.

Santos-Dumont, the aeronaut, and Miss Ellen M. Stone, the mession ary, arrived this morning. The latest and most wonderful riumph of diamond work is an entire decolletage-almost a belero in dia monds, and placed upon a chiffon lacey bodice will do the entire deed of deco-ration in one stroke. Great oblong and cabochon emeralds stud the trelliswork of its formation, while from the two fronts their dangles a glittering trembling fringe of diamonds. Needless to say, this most beautiful of bodice ornaments is perfectly plant at every point; and may be constructed to detach into separate ornaments.-From

CORRESPONDENT MAKES SUG GESTIONS ABOUT CHANGING NAMES.

EDITOR TRIBUNE: F. R. Porter's suggestion in the columns of THE TRIBUNE, that in referring to the 'Broad-gauge" and Narrow-gauge," the terms "Oakmole" and "Alamole" be employed for these respective routes in line of the present misleading designations is a grateful addition to local nomenclature.

In the years of long ago I cherished the friendship of an artist—a genia! shole-souled fellow, whose only failing onsisted in the delusion that he could old masters, and his favorite old master. Rembrandt, He tortured him with all the ingenuity that poor drawing and crude coloring could devise, until there remained but the barest reemblance to the generally third-rate

In the right hand lower corner of bis own name—prominently and My friend's name happened to be Firebaugh. In course of time, by the same psychological process that enabled Friend Forter to evolve a couple of verbal gems, we came to speak of those libels on Art as Firebrands, a name we found conveniently expository, and (to quote Mr. Porter), euphonistic and

atrongly appropriate.

And now for the further application of the same principle. The people of Oakland will soon be called upon to discharge an imperative duty. It is nothing less than the coinage of a name that shall meet with the approval of our neighbors across the estuary. Oakland and Alameia were not intended to exist apart forwere not intended to exist apart for-ever. Manifest destiny as well as mutual interest must sconer or later unite these two cities. But what name shall consolidate the ideals of both?— Alamedans can never be prevailed upon to forego completely and irrevocably the name they bear. Our case, too, presents its difficulties. Oakland, by far the larger and more important of the two, will naturally insist that the memory of oaks that formerly grew here must not absolutely pass from the minds of men. Thanks to Mr. Porter's suggestion, the problem Might be solved in this way.

Let us name Greater Oakland, or Greater Alameda, as the case may be—

Oaklameda. Again, the mention of oaks that were, recalls caks that be. Berkeley oaks are not a mere memory to be embalmed in a name, but an impressive fact, that may be verified any fine Berkeley day. Who can trace the line where Ookland ends and Berkeley begin, except on the map? The two cities are almost one. Then why not join Berkeley to Oaklameda under one name?-a name that shall commem orate a trinity of historical, political and topographic entities; a name to conjure with; a name to fire the imagconjure with; a name to the the mag-ination and fascinate the senses; a name to be lisped, sighed, sung and shouted from the Crags of Grizzly Peak to the sands of Alamole; from the Last Chance to the First—BERK-LAMOAK.

ILET RAILROAD KEEP PROMISE.

TALIESIN EVANS DOES NOT WANT THE COUNCIL TO GIVE SPUR TRACK FRANCHISE.

EDITOR TRIBUNE-I observe that an application has been made to the Council for a spur track from the Webster street line to a wood yard on the south side of First street. While this spur track, if allowed, may be of no special public inconvenience now, there is no

This section of Oakland's water front is at present undergoing a wonderful transformation. The California Improvement Company has of late exhibited a ommendable degree of enterprise and is nducing substantial enterprises to locate in the neighborhood. That corporation is worthy of every encouragement which can be given to it consistent with a due regard for public rights.
But when a wood yard, which has no

claim on public consideration, applies for and use a section of a public street with not, therefore, be granted. I In fact, the Council has no right

permit a steam railroad to encroach Harrison street brige to cut through the sidewalk. It was tolerated, though, under the distinct agreement, which has never been fulfilled, that the block bounded by Webster, Harrison, First and Second streets, should be made a public park and laid out as such by the Southern Pacific Company.

park and laid out as such by the Southern Pacific Company.

The city has never, as far as I know, called upon that corporation to fulfill the promises of its officers when the privileges enjoyed by the curve track were granted. It is a good time now to ask that these promises be fulfilled, for the city is waking up from its long Rip Van Winkle sleep and endeavoring to redeem its lost opportunities. No more steam railroad spurs should be allowed either in that section or in any other to encroach on the public streets or sidewalks until the obligations entered into in the past are fully redeemed. The wood yard past are fully redeemed. The wood yar applicant is, of course, acting merely a a dummy for the corporation. Let u have the park promise in that neighbor hood fulfilled first and the new spur mabe considered afterward.

WILLARD AT COLUMBIA.

The attraction at the Columbia Theater in San Francisco this week is that thrilling drama of mediaeval times, "The Cardinal." E. S. Willard, the great English actor, who is a world star in the thespian field, has the role of the young Roman Cardinal, Giovanni Medici. Mr. Willard's leading woman is Miss Ellen O'Malley, a renowned footlight player from Ireland.

The plot of "The Cardinal" deals with an aspirant for the pontifical office whose youngest brother becomes charged with the murder of his sweetheart's father. The deed has been committed by another suitor for her heart and hand whose guilt has been disclosed at confession to one man, the Cardinal, who, one day, when intensely moved, is the means whereby the assassin is revealed. As indicated, the action of the Columbia Theater production is exciting and enthridling in every sense.

Mr. Willard will appear during his engagement at this very fashionable playhouse in "The Professor's Love Story," "David Garrick," and "Tom Pinch." The scale of prices goes from 25 cents to \$2, and there are no performances Sunday evenings.

What! Does the Grim Spectre Follow You Into the Joyous Springtime?

Paine's Celery Compound

Defeats the Work of Death by Removing Your Terrible Burden of Disease.

Are you still in suffering, misery, and despondency? Does the grim spectre Death follow you closely as the joyous springtime brings happiness and blessings to others around you? Are you still clinging tenaciously to false theories of physicians or friends who persist in assuring you that time care, and the use of your present medicine will give you new health?

Be assured your present condition is a perilous one. The continuance of the medicine you are now using is a folly; you are simply trifling with life and wasting precious time.

You should remember that while na ture clothes the fields with fresh grass and flowers, and while the trees with a strong life are showing bursting buds and new foliage, that human beingsold and young-drop off in thousands

in springtime.
Now is the time for prompt, decided, and practical action if life is to be saved. Prejudice and the erroneous theories of even medical men should be cast aside when the hand of death is upon you. It matters not what your social position be; the medicine that sayes the humblest man or woman is surely the one adapted for the needs of the rich and those in high social positions.

STUDENTS MAKE A GOOD SHOW ING WHEN IT COMES TO THE TEST.

BERKELEY, April 10.-Trainer Christie last night tried out ten candidates for the relay race to be run in the intercollegiate games. The dislance of the tryout was a quarter of a mile, which is considerably over the distance required in the relay. The time for the quarter ranged from 55 seconds to 58, which is good time without any pace having been set. The relay team will be selected from

Schilling and McLish. Before the team is finally selected mother tryout will be held. Speaking of the Eastern trip Gradu-

the following: Annear, Ligda, Haword,

Brainard, Hartley, Service, Smille,

tte Manager Decoto said: "We fully xpect to raise \$2,000 from the student ody this year by subscription. Last ear only \$1000 was raised, but the interest and enthusiasm of the students this year warrants the statement that \$2000 will be subscribed. "Last year at this time about \$150

had been raised and we have on hand now nearly \$800. The last week, of course, is the time when most of the money is paid in. We expect that the Alumni will raise \$1000. From indi-

class field-day and there is but little question but what they will accompany

the team East.

The prevailing opinion is that no one men in that event and the members of the track team believe it would be of the track team behave it would be unwise to take a man along who stood no chance of winning.

Cadogan seems to be the only one in the team who can negotiate the dis-tance in the required time. Neither Trainer Christie nor Manager Decoto think that Cadogan should be called

RAILROAD NEWS FROM WEST OAKLAND YARDS.

Great Revival in Trade ready to be placed in commission as an oil burner in two weeks.

The Modoc is also being converted into an oil burner. and Travel at West Oakland.

The spring revival in trade at the Vest Oakland railroad yards, judging from the volume of business done this

veek, is on in earenst. The winter season just past was emarkable one. The volume of busi-ess done by the Southern Pacific noany was unprecedented as far as company was unprecedented as far as the winter seasons are concerned. But few cars were idle during any part of the season and there was very little extra motive power. The features of the winter trade were lumber, Australian coal and Hawaiian sugar. The coal trade with Australia was entirely low coal within a very short ranked new and within a very short period will assume leading proportions. The lumber trade was so great that all orders could not be filled by the California mills. Orders from the in-terior of the State, from Eastern ceners and from Australia yet remain un iled. The demand centers upon Cali-ornia sugar pine, which a few years to was considered an unprofitable ure. Other woods of the State are

demand, but do not compare with ie sugar pine trade. The spring season opens with a rush. All available lumber is contracted for and orders are still pouring in.

The Hawaiian sugar, which was such a feature of last year's tremendous pusiness, opens briskly, with a dozen ships engaged in bringing sugar from the mid-ocean islands and taking a re urn cargo of machinery and merchan-

From indications the Southern Pabusinesses this year in its history and the communities in the State will share in the general prosperity to a larger extent than any time since the early

PASSENGER TRAFFIC IS GREATER THAN EVER.

The spring fever for travel seems to have manifested itself unusually early this year. There are twenty-two trains daily which leave the Oakland mole on the main line track and the same number of trains arrive.

> MASTER MECHANIC M'KENZIE DISPLAYS MUCH INGENUITY.

Master Mechanic McKenzie displayed considerable mechanical ingenuity converting one of, the little eight-converting one of, the little eight-wheeled locomotives, formerly used on the Telegraph avenue line, into a stationary engine, whose function is to supply the power for a band saw and to hoist all material used on the marine

ways. The rims of the eight wheels were taken off and the drivers adapted to the running of a belt, which in turn propels the band saw. The engine is placed upside down and rests on the la surprise party to James Dulen on fire-box. Besides supplying the band Wednesday last. Last night Joseph R. Knowland lectured on "Missions of California" at a reception given the Native Daughters of Haywards by Eden Parlor of Native Sons. at the Risdon Iron Works, San Francisson, will soon be plowing through the waters of the bay again. She will use oil hereafter instead of coal.

Her boilers were inspected by the company's officials on Monday lust and found to be satisfactory.

The Newark has been remodeled at a cost of upwards of \$80,000 and will be one of the handsomest boats on the bay when completed. She has been on the marine ways over a year and the changes made are nearly equal to building a new boat. The steamer has been lengthened and made to draw four feet more water. The upper deck and interior has been modeled after the pattern of the handsome ferry steamer Berkeley.

MACHINISTS WILL GIVE GRAND BALL ON APRIL 24.

Great preparations are being made by the Machinists' Union at West Berkeley for a grand ball to be given on April 24, at Reed's Hall. The committee in charge has made such external plans that the evening is looked forward to as one of the real events in the social life of the railroad boys. The attendance will, from the present interest taken in the affair, be the greatest of any event yet given by the railroad men.

INTERESTING BREVITIES GATHERED AT LONG WHARF.

The bark St. Catherine had an urusually stormy passage from Honolulu sugar ladened. When a few days out from the Hawaiian Port she struck heavy seas and violent winds. A dozen sails were carried away during th trip and her masts sprung. After she has finished discharging at Long Wharf she will be placed on the dry dock and her hull inspected for leaks and sprairs.

HARRIMAN WILL VISIT THE RAILROAD YARDS.

President Harriman of the Southern Pacific system is expected to visit the West Oakland Railroad yards at a near date. Much activity is noticeable among the heads of the departments, who wish to have things looking neat nd trim when their chief comes

through.

Roadmaster T. Ahern has been particularly industrious in removing all extraneous growth of vegetation from the tracks between Niles and Livermore and other way stations.

The yards themselves are being put into a natty condition. The signals at the switches are being painted and the switches are being painted and the yards cleared of all objectionable
